Profile Summary

Passionate and self-driven individual with a strong interest in frontend development and modern web technologies. Experienced in building responsive web applications using JavaScript, React.js, and MERN stack fundamentals. Developed full-stack and frontend projects including an AI-enabled inventory management system and food ordering platform. Solved 500+ coding problems across platforms and committed to building scalable, user-focused applications.

Education

- | | |
|---|--------------|
| CGC University, Mohali
B.tech in Computer Science & Engineering <ul style="list-style-type: none">CGPA: 8.65 | 2024 to 2027 |
| Government Polytechnic College, Patna - 07
3-year Diploma in Computer Science & Engineering <ul style="list-style-type: none">CGPA: 8.01 ↗ | 2023 |

Projects

- KiranaSmart - Smart Inventory Management System** [↗](#)
- Developed a full-stack inventory and sales management system using React.js, Node.js, Express.js, and MongoDB to help kirana stores manage products, stock, and sales efficiently.
 - Implemented QR/Barcode-based product scanning using camera along with automated stock updates and real-time sales tracking.
 - Built an AI Assistant module to provide smart insights such as daily sales, low-stock alerts, and inventory analytics through an interactive dashboard.
- GoldenBite - Food Delivery Web App** [↗](#)
- Built a responsive food ordering web interface using React JS and Bootstrap.
 - Developed reusable UI components and implemented state management for dynamic cart updates.
 - Applied component-based architecture and responsive design principles to improve maintainability and user experience.
- Smart Stock Portfolio Optimization (0/1 Knapsack Problem)** [↗](#)
- Built a web-based stock portfolio optimizer using HTML, CSS, and JavaScript, applying the 0/1 Knapsack algorithm to maximize returns within budget.
 - Designed an interactive UI for adding stock data, calculating optimized portfolios, and dynamically displaying results.

Tech-Stack & Skills

- Languages & Web Technologies:** C++, HTML, CSS, JavaScript MERN stack.
- Database Management/Servers & Version Control:** SQL/SQLite, MongoDB, Git, GitHub, REST APIs.
- Soft Skills:** Quick Learner, Problem-solving, Decision-making, Teamwork.

Achievements & Awards

- Solved 500+ DSA problems across platforms like CodeChef, LeetCode, GeeksforGeeks, and HackerRank.
- Achieved **2-star** [↗](#) rating on CodeChef, demonstrating strong problem-solving and algorithmic skills.
- Completed a 30-day coding challenge [↗](#) with Hackathon participation, enhancing problem-solving, coding efficiency, algorithm design, and competitive programming skills.

Certifications & Training

- AWS Academy Graduate - Generative AI Foundations, **Amazon Web Services** [↗](#)
- Database and SQL, **Infosys Springboard** [↗](#)
- Learn C++, **CodeChef** [↗](#)
- JavaScript Essentials 1, **CISCO** [↗](#)
- IT Essentials, **CISCO** [↗](#)
